

WHAT IS MY CALLING?

QUESTIONS I CAN ASK.....

What do I LOVE?

Think back to when you were a kid – what was your play like?
Where and when were you happiest? What did you love to do?
What about now? What are you most passionate about?

What am I GREAT at?

Think about your career history and what your learned skills are
and your natural talents. What do you receive compliments
about? Think about what you are skilled at in your personal life.
What makes you feel as majestic and magical as a horse?

What does the world NEED?

What problems do you see that you would most want to solve? What
problems do your colleagues/family/friends have that you are naturally
helping with? What causes do you care the most about and/or donate to?

How can I COMBINE these?

Your purpose or calling is a combination of these three above
– what you love, what you excel at (i.e. skills), and what the world needs!
Brainstorm with a trusted friend or coach what this trifecta is for YOU!
